

Osterley Cricket Club

Emergency Procedures

Osterley Cricket Club is fully committed to providing a safe environment and effective methods of safety and security for all its members and personnel using the facilities. In case of any accident or injury the following steps should be followed and implemented:

- Act swiftly and stay calm.
- Assess the situation and check if there are any dangers to yourself or the injured person.
- Listen to the injured person, reassure them and try to keep them calm and prevent them going into shock.
- Alert the first aider who should take the appropriate measures for the injury and should aid the injured person with minor injuries. First aiders are clearly mentioned on the club-house entrance wall.
- In the event of a serious injury the emergency services should be called. This should be done by another person, not the first aider who should stay with the injured person. If instructed their advice should be followed during the delay/time it takes them to arrive.
- A person with major injuries should not be moved but should be reassured until the emergency services arrive. The air around the person must be kept clear to help continue breathing.
- Make sure that the rest of the group are adequately supervised and that they are aware of what needs to be done.
- Contact the injured person parents/guardians. Contact details can be obtained from behind the bar or the coach leading the session should have them noted in his Register.
- The incident and accident forms should be filled in and kept as a record of the injury. They might be required to be produced by the authorities should there be need.
- The incident is to be recorded in the Osterley Cricket Club Accident Report Log located behind the Bar in the club-house.

Note:

In case of any emergency that requires immediate response from the authorities you are advised to dial 999 and observe/help where possible until the authorities arrive. Once the matter is attended to by the authorities you should give them accurate and descriptive details of the incident. All your information will need to be logged in the Incident Report Log placed behind the bar. Please make sure you describe everything as descriptively and with as much detail as you can, from your recollection.
